Contents

List of figures	11
List of tables	12
Chapter 1 Introduction	13
1.1 Main research question	16
1.2 Literature review	17
1.3 Research questions.....	22
1.4 Research methods	27
1.5 Chapters overview	28
1.6 Origin of chapters	30
Chapter 2 Information sharing for effective IT incident resolving in IT service provider networks.....	33
2.1 Introduction.....	35
2.2 Model building.....	37
2.3 Related work.....	38
2.4 Research design	40
2.5 Results.....	43
2.6 Discussion	56
2.7 Threats to validity and research limitations	58
2.8 Conclusion	59
2.9 Appendix.....	61
Chapter 3 Improving IT incident handling performance with information visibility	65
3.1 Introduction.....	67
3.2 Service-teams and Incident handling.....	69
3.3 Research design	71
3.4 Visibility Correlation Case Study	77
3.5 Visibility Intervention Case Study	87
3.6 Research validity.....	96
3.7 Conclusion	97
3.8 Appendix.....	99
Chapter 4 Towards a governance framework for chains of Scrum teams	101
4.1 Introduction.....	103
4.2 Related Work	105
4.3 Research Method.....	112
4.4 Issues identified	116
4.5 Towards a conceptual model integrating the issues	125

4.6 Threats to validity	133
4.7 Conclusion	134
Chapter 5 Delivering business value faster by sets of codependent Scrum teams: a governance framework	137
5.1 Introduction	139
5.2 Related work	140
5.3 Research Method	146
5.4 Results	155
5.5 Discussion	161
5.6 Threats to validity	163
5.7 Conclusion	164
Chapter 6 Improving the Agility of IT Service Networks	167
6.1 Introduction	169
6.2 Related work	170
6.3 Agile 5+1 intervention actions	173
6.4 Agile 5+1 framework	179
6.5 Discussion	181
6.6 Threats to validity	182
6.7 Conclusion	182
Chapter 7 Conclusion	185
7.1 Looking back	187
7.2 Revisiting the research questions	187
7.3 Contribution and implications	190
7.4 Limitations and future research	191
Chapter 8 Summary.....	193
Chapter 9 Samenvatting.....	197
Chapter 10 Curriculum vitae.....	201
Chapter 11 Bibliography.....	205

List of figures

Figure 1, graphical representation of an IT service network	23
Figure 2, Control theory model	37
Figure 3, Information – action – performance model	38
Figure 4, Research design	41
Figure 5, IT provider network map of the research domain.....	44
Figure 6, Involved IT service provider roles	45
Figure 7, Conceptual model.....	55
Figure 8, Service chain of an IT service provider offering services to business partners .	68
Figure 9, Routed IT incident between service-teams	70
Figure 10, Control theory model	72
Figure 11, Linked human actors in a service-team	72
Figure 12, Linked service-teams	73
Figure 13, Control theory model augmented with visibility	74
Figure 14, Hypothesized visibility and performance	76
Figure 15, Network constellation of research domain	78
Figure 16, Performance and visibility per service-team	85
Figure 17, Performance and surrounding visibility.....	87
Figure 18, Performance per incident priority	89
Figure 19, Incident handling performance trend.....	95
Figure 20, Number of recorded incidents in each month.....	96
Figure 21, Front to back business process supported by Scrum teams.....	103
Figure 22, Research design	112
Figure 23, Resulting conceptual model	132
Figure 24: Scrum Value chain Framework (SVF)	152
Figure 25: Trend of the Feature story cycle time	156
Figure 26, Icon of Agile 5+1	181

List of tables

Table 1, Search strings and Scholar Google hits	17
Table 2, Typical keywords and conclusion identified literature	19
Table 3, Research overview	28
Table 4, Potential problems during interviews.....	42
Table 5, Number of quotes per information category.....	54
Table 6, Used variables for performance visibility measurement.....	80
Table 7, Definition of variables and their metrics	81
Table 8, Number of incidents per month	82
Table 9, IT incident handling performance $PR_{(p,t+1)}$	83
Table 10, Correlation matrix of performance and visibility.....	86
Table 11, Research service-team criteria.....	88
Table 12, Setting service-team pre-conditions	88
Table 13, Sample performance report	89
Table 14, Overview of identified issues in each related work category	105
Table 15, Case study selection criteria	113
Table 16, Predefined interview questions	114
Table 17, Code grounding of each issue	116
Table 18, Cross-case analysis of the issues.....	117
Table 19, Case study selection criteria	147
Table 20, AGF coverage with (SVF) items	153
Table 21, Variables and description of the cycle time variables	153
Table 22, Mail database with typical keywords.....	154
Table 23, Performance variables	155
Table 24, Number of allocated points per category in each team	160
Table 25, Intervention action framework for improving IT service network Agility.....	180
