# Contents

Chapter 1	General introduction	9
Chapter 2	Serial reversal learning and acute tryptophan depletion	19
Chapter 3	Lack of evidence for reduced prefrontal cortical serotonin and dopamine efflux after acute tryptophan depletion	35
Chapter 4	Tryptophan depletion and serotonin release - a critical reappraisal	49
Chapter 5	Medial prefrontal serotonin in the rat is involved in goal- directed behaviour when affect guides decision making	61
Chapter 6	Pharmacological manipulation of neuronal ensemble activity by reverse microdialysis in freely moving rats: a comparative study of the effects of tetrodotoxin, lidocaine, and muscimol	85
Chapter 7	5-HT <sub>2A</sub> receptor antagonism impairs encoding of reward-related information in the rat orbital prefrontal cortex	105
Chapter 8	General discussion	131
	Reference list	147
	Dutch summary	171
	List of publications	177
	Acknowledgements	179
