Table of contents

Chapter 1	General introduction and thesis outline	7
Chapter 2	Nutrition and neuropathology	21
Chapter 2.1	Brain tocopherol levels are associated with lower activated microglia density in elderly human cortex	23
Chapter 2.2	Brain γ -tocopherol levels are associated with presynaptic protein levels in elderly human midfrontal cortex	43
Chapter 3	Metabolic profiles in Alzheimer's disease	9
Chapter 3.1	Blood-based metabolic signatures in Alzheimer's disease	61
Chapter 3.2	Circulating metabolites are associated with brain atrophy and white matter hyperintensities	87
Chapter 4	Nutritional biomarkers and clinical progression in Alzheimer's disease	107
Chapter 4.1	Associations between nutrient intake and corresponding nutritional biomarker levels in a memory clinic cohort: the NUDAD project	109
Chapter 4.2	Specific nutritional biomarker profiles in mild cognitive impairment and subjective cognitive decline are associated with clinical progression: the NUDAD project	133
Chapter 4.3	LDL cholesterol and uridine levels in blood are potential nutritional biomarkers for clinical progression in Alzheimer's disease: the NUDAD project	169
Chapter 5	Summary and general discussion	193
	Appendix	209
	Nederlandse samenvatting	210
	List of author affiliations	222
	List of publications	226
	Dissertations Alzheimer Center Amsterdam	230
	Dankwoord	234
	About the author	238
