TABLE OF CONTENTS

Chapter 1	General introduction	7
Chapter 2	Mycosins are required for the stabilization of the ESX-1 and ESX-5 type VII secretion membrane complexes	65
Chapter 3	A chimeric EccB-MycP fusion protein is functional and a stable component of the ESX-5 type VII secretion system membrane complex	95
Chapter 4	Protease and transmembrane domain of the type VII secretion mycosin protease determine system-specific functioning in mycobacteria	127
Chapter 5	Purification, proteolytic activity and druggability of the mycosin protease domain	153
Chapter 6	Summarizing discussion	179
	Nederlandse samenvatting	196
	List of publications	200
