Table of contents

Chapter 1	Introduction	7
Chapter 2	Distinct gene expression in demyelinated white and grey matter areas of patients with multiple sclerosis	27
Chapter 3	Exploring reported genes of microglia RNA-sequencing data: uses and considerations	53
Chapter 4	Much, if not all, of the cortical damage in MS can be attributed to the microglial cell – YES	69
Chapter 5	Regulation of microglial TMEM119 and P2RY12 immunoreactivity in Multiple Sclerosis white and grey matter lesions is dependent on their inflammatory environment	73
Chapter 6	Dynamic indentation reveals differential viscoelastic properties of white matter versus grey matter-derived astrocytes upon treatment with lipopolysaccharide	95
Chapter 7	Viscoelastic properties of white and grey matter derived microglia differentiate upon treatment with lipopolysaccharide but not upon treatment with myelin	113
Chapter 8	Discussion	135
Appendices	Summary	153
	Nederlandse samenvatting	157
	Dankwoord	161
	List of publications	165
	About the author	166
