## TABLE OF CONTENTS

<b>Chapter 1</b>	General introduction	<b>7</b>
------------------	----------------------	----------

### PART I: GASTRIC ACID SUPPRESSION

<b>Chapter 2</b>	Evaluation of the association between gastric acid suppression and risk of intestinal colonization with multidrug-resistant microorganisms: a systematic review and meta-analysis. <i>JAMA Intern Med. 2020;180:561–571.</i>	<b>23</b>
<b>Chapter 3</b>	Gastric acid suppression, lifestyle factors and intestinal carriage of ESBL and carbapenemase-producing Enterobacterales: a nationwide population-based study. <i>J Antimicrob Chemother. 2021 24;77:237-245.</i>	<b>47</b>
<b>Chapter 4</b>	Characterization of two carbapenemase-producing Enterobacterales isolated from community residents in the Netherlands. <i>Submitted for publication.</i>	<b>65</b>
<b>Chapter 5</b>	Proton pump inhibitors increase the risk of acquisition of drug-resistant Enterobacterales. <i>Accepted for publication in JAMA Network Open.</i>	<b>77</b>

### PART II: COLONIZATION AND INFECTION

<b>Chapter 6</b>	Gut colonisation by extended-spectrum $\beta$ -lactamase-producing <i>Escherichia coli</i> and its association with the gut microbiome and metabolome in Dutch adults: a matched case-control study. <i>Lancet Microbe. 2022;3:e443-e451.</i>	<b>99</b>
<b>Chapter 7</b>	Incidence of infection with multidrug-resistant Gram-negative bacilli and vancomycin-resistant Enterococci in carriers: a systematic review and meta-regression analysis. <i>Accepted for publication in Lancet Infectious Diseases.</i>	<b>121</b>
<b>Chapter 8</b>	Methodological considerations	<b>149</b>
<b>Chapter 9</b>	General discussion	<b>155</b>

### APPENDICES

<b>Samenvatting</b>	<b>172</b>
<b>List of publications</b>	<b>176</b>
<b>Dankwoord</b>	<b>177</b>
