Contents:

Chapter 1	General Introduction	9
Chapter 2	Frontotemporal Dementia: Correlations between psychiatric symptoms and pathology	31
Chapter 3	Psychiatric symptoms of frontotemporal dementia and subcortical (co-) pathology burden: new insights	59
Chapter 4	Von Economo neurons are part of a larger neuronal population that are selectively vulnerable in C9orf72 frontotemporal dementia	93
Chapter 5	The severity of behavioural symptoms in FTD is linked to the loss of GABRQ-expressing VENs and pyramidal neurons	111
Chapter 6	Unfolded protein response activation in C9orf72 frontotemporal dementia is associated with dipeptide pathology and granulovacuolar degeneration in granule cells	131
Chapter 7	General Discussion	153
Appendices		167
	Summary	168
	Acknowledgements	170
	List of publications	172
