# Table of Contents

## List of Tables

| Chapter 1: Introduction |  
| --- | --- |
| 1.1 Introduction | 1 |
| 1.2 Issues of Knowledge Intensity, Chinese MNEs, Digitalization, and Foreign Market Entry Strategies | 3 |
| 1.2.1 Knowledge Intensive Firms | 3 |
| 1.2.2 Chinese MNEs | 5 |
| 1.2.3 Digitalization | 6 |
| 1.2.4 Foreign Market Entry | 8 |
| 1.3 Theoretical Gap and Research Question of This Dissertation | 10 |
| 1.4 Overview of Studies in the Dissertation | 11 |
| 1.5 Theoretical Gaps and Research Questions Addressed in the Dissertation | 13 |
| 1.6 Methodologies used | 15 |
| 1.7 Contributions | 18 |
| 1.7.1 Intended Overall Contributions of the Dissertation | 18 |
| 1.7.2 Individual Contributions | 20 |
| 1.8 Contents of the Dissertation | 22 |

## Chapter 2: Knowledge Across Borders: A Systematic Review of Research on Knowledge Management Among the Chinese Multinational Enterprises

| Toward A Conceptual Framework |  
| --- | --- |
| 2.1 Introduction | 26 |
| 2.2 Design of the Systematic Review Study | 28 |
| 2.2.1 Search Strategy | 29 |
| 2.2.2 Selection Criteria and Procedures | 29 |
| 2.3 Bibliometric Analysis | 32 |
| 2.4 Toward An Integrative Framework | 37 |
| 2.5 Home Orientation: Linking Inward FDI with Knowledge Management | 49 |
| 2.5.1 Knowledge Acquisition at Home | 49 |
| 2.5.2 Knowledge Leverage at Home | 51 |
| 2.5.3 Government Impact in the Home Orientation Phase | 53 |
| 2.6 Overseas Orientation: Linking Outward FDI with Knowledge Management | 55 |
| 2.6.1 Knowledge Acquisition from Overseas | 55 |
| 2.6.2 Reverse Knowledge Transfer from Overseas | 59 |
| 2.6.3 Knowledge Leverage Overseas | 66 |
| 2.6.4 Government Impact in the Overseas Orientation Phase | 67 |
| 2.7 Global Orientation: Linking Global Innovation Centres with Knowledge Management | 69 |
2.7.1 Knowledge Integration and Creation 69
2.7.2 Government Impact in the Global Orientation Phase 72
2.8 Outcomes of Knowledge Management among Chinese MNEs 73
2.8.1 Innovation and Learning 73
2.8.2 Competitiveness and Internationalization 76
2.9 Moving Forward: Future Research Directions 77
2.9.1 Shifting from Knowledge Acquisition / Transfer to Knowledge Creation 78
2.9.2 Knowledge Management in the Context of Digital Transformation 80
2.9.3 Engaging with Local and Foreign Governmental Agents 81
2.9.4 Chinese MNEs Competing with Advanced-Country MNEs in Emerging Markets 82
2.9.5 Chinese Socio-Cultural Effects on Knowledge Management 83

Chapter 3: Business Model Innovation and Experimentation in Transforming Economies: ByteDance and TikTok 87
3.1 Introduction 88
3.2 ByteDance and TikTok 89
3.3 Key Elements of TikTok’s Business 90
3.3.1 Combining Elements of Various Other Businesses – Innovation vs Imitation 90
3.3.2 Technological Assets – A Unique AI Algorithm 91
3.3.3 Value-Creation and Capturing Mechanisms 93
3.4 Conclusion 95

Chapter 4: Revisiting the Internationalization Performance Relationship in the Digital Age with Algorithm Support: A Study of The Internationalization of Mobile Apps 97
4.1 Introduction 98
4.2 Digital Products’ International Diversification and Performance 100
4.3 Research Context and Data Collection 101
4.4 Methodological Framework 102
4.4.1 The Importance of Using ML in Digital and Global Business 102
4.4.2 Data Preparation and Variable Generation 109
4.4.3 Overview of All Variables 111
4.4.4 Mobile Apps’ Global Performance 111
4.4.5 Empirical Research Strategy 114
4.4.6 ML Model Accuracy and Variable Importance Ranks 115
4.5 Results of ML 120
4.5.1 ML-assisted Variable Validation for the Final Classic Regression Model 120
4.6 Hypothesis Development 127
4.6.1 International Diversification and Download Performance 127
4.6.2 The Contingency Role of Localization 129
4.6.3 International Knowledge Connectivity and the International of Open Innovation 132
4.6.4 Newness to Market 134
4.7 Hypothesis Testing 136
4.7.1 Main Results 136
4.7.2 Robustness checks 140
4.8 Discussion and Conclusion 142

Chapter 5: Using Machine Learning to Organize Inter-Theory Battles: The Example of Japanese MNE’s FDI Modes 149
5.1 Introduction 150
5.2 Literature Review 152
5.2.1 Resource-Based View and Organizational Learning Theory 152
5.2.2 Institutional Theory 153
5.2.3 Transaction Cost Economics 155
5.2.4 Network Theory 155
5.3 Methodology 158
5.3.1 Machine Learning 158
5.3.2 Machine Learning Assisted Process 160
5.4 Analysis and Results 164
5.4.1 SHAP and Interpretation of Major Predictors (Evidence) 164
5.4.2 The Theoretical Winner 169
5.5 Discussion 172
5.6 Limitations and Future Research 176

Chapter 6: Discussion and Conclusion 179
6.1 Introduction 179
6.2 Findings of the Dissertation 180
6.3 Theoretical Contributions of the Dissertation 183
6.3.1 Building Global Competitiveness Through Knowledge Management 183
6.3.2 Illuminating the Internationalization Process 185
6.3.3 Business Model Innovation and Localization Strategies of Digital Firms 187
6.4 Managerial Implications 189
6.5 Limitations and Future Research 191
