Contents

Acknowledgement	v
1 Introduction	1
1.1 History of Revenue Management	2
1.2 Contribution of this Dissertation	4
2 Exploratory Data Analysis in Revenue Management Forecasting	7
2.1 Introduction	7
2.1.1 Background	8
2.2 Case Description	9
2.3 Insight into Seasonality	10
2.3.1 Annual Seasonality	11
2.3.2 Weekly Seasonality	12
2.3.3 Daily Seasonality	13
2.4 Insight into Group Cancellation Behaviour	16
2.4.1 Booking Pace	16
2.4.2 Cancellations	17
2.5 Insight into Demand Uncertainty	19
2.5.1 Probability Distribution Function	19
2.5.2 Implication: Logical Inferences about Hotel Size	20
2.6 Discussion	21
3 RM under Custer Choice Behaviour with Cancellations and Overbooking	23
3.1 Introduction	23
3.2 Model Description	25
3.3 Solution Methods	29
3.3.1 General Solution Method: No Assumptions on Cancellation Behaviour	29
3.3.2 Tractable Exact Solution: Linear and Equal Cancellations (LEC) Assumption	32
3.3.3 Independence of Cancellations Heuristic (IOC)	34
3.3.4 Linear Cancellation Rates Heuristic (LCR)	38
3.3.5 Multiple Room Types Heuristic (MRT)	39
3.4 Estimating Parameters	40
3.5 Numerical Results	45
3.5.1 Computation Time of Estimation Methods	46
3.5.2 Computation Time: Heuristics vs. Exact Solution	46
3.5.3 Performance of Solution Methods	47

3.5.4	Estimation Accuracy vs. Performance of Solution Methods	48
3.6	Discussion	50
3.6.1	Selecting an Appropriate Model, Solution Method, and Estimation Method	50
3.6.2	Future Directions: Choice-Based Network Cancellation Model	51
3.7	Concluding Remarks	51
3.A	List of Proofs	52
3.B	Estimating Parameters	55
3.B.1	Multinomial Logit Model	55
3.B.2	Complete Knowledge	56
3.B.3	Incomplete Knowledge: Expectation Maximisation Algorithm	57
4	Single-Leg Choice-Based Revenue Management: a Robust Optimisation Approach	59
4.1	Introduction	59
4.2	Model Description	61
4.3	Robust Reformulation	63
4.3.1	Reformulation	63
4.3.2	Discussion of Selected ϕ -Divergence Measures	66
4.4	Numerical Results	68
4.5	Concluding Remarks	71
4.A	Introduction to Robust Linear Optimisation and ϕ -Divergence Uncertainty Sets	72
5	Pricing-Based Revenue Management for Flexible Products on a Network	73
5.1	Introduction	73
5.2	Model Description	75
5.2.1	Stochastic Model	75
5.2.2	Deterministic Model	77
5.2.3	Group Bookings	79
5.3	Solution Methods	80
5.3.1	Heuristic One: Make to Stock (MTS)	80
5.3.2	Heuristic Two: Make to Order (MTO)	83
5.4	Numerical Examples	85
5.4.1	MTS and MTO	86
5.4.2	Estimation Error	87
5.4.3	Group Bookings	88
5.5	Concluding Remarks	88
6	Choice-Based Single-Leg Revenue Management under Online Reviews	91
6.1	Introduction	91
6.2	General Model Description	92
6.2.1	Modelling Demand and Cancellations as a Function of Reviews	94
6.2.2	Running Example	94
6.3	A Tractable Model	95
6.3.1	Computational Issues	96
6.3.2	Equilibrium Strategies	97
6.3.3	One Performance Dynamics	98
6.3.4	Policies and Value Vectors	99
6.3.5	Scalarisation and Scalarised Solution Methods	100
6.4	Computing Coverage Sets for Single-performance Planning	100

6.4.1	Coverage Sets	101
6.4.2	Optimistic Linear Support	103
6.4.3	Equilibrium Strategy	104
6.5	Numerical Examples	106
6.5.1	One Instance: Policy Analysis	106
6.5.2	Equilibria	109
6.6	Concluding Remarks	110
7	Choice-Based Network Revenue Management under Online Reviews	111
7.1	Introduction	111
7.2	Stochastic Model	112
7.2.1	Model Description	112
7.2.2	Problem Formulation	114
7.3	Deterministic Model	114
7.3.1	CRLP Formulation	115
7.3.2	Upper Bound and Asymptotic Optimality	116
7.4	Solution Methods	119
7.4.1	CRLP Approximation	119
7.4.2	Robust CRLP	119
7.4.3	Computational Challenges	121
	Segmentation under Disjoint Consideration Sets	121
	Branch-and-Price	121
7.5	Numerical Results	122
7.5.1	Demand Load	124
7.5.2	Weight of Review Probabilities	125
7.5.3	Hotel Size	125
7.5.4	Estimation Error	126
7.6	Concluding Remarks	126
7.6.1	Application Areas	127
7.6.2	Further Research	127
	Summary and Conclusion	129
	Bibliography	131
