Contents

Chapter 1. General introduction	9
Chapter 2. Jaw bone marrow-derived osteoclast precursors internalize more bisphosphonate than long-bone marrow precursors	21
Chapter 3. Zoledronic acid differently affects long bone and jaw bone turnover and induces molar root resorption in female mice	47
Chapter 4. The effect of bisphosphonates on human periodontal-ligament-fibroblast-mediated osteoclastogenesis	69
Chapter 5. Osteoclast fusion and fission	83
Chapter 6. Migration, fusion, and CXCL12-CXCR4-mediated chemoattraction of long bone and jaw osteoclast precursors	103
Chapter 7. General discussion	123
General summary	135
Algemene samenvatting	139
Acknowledgments - Dankwoord	143
About the author	149
