# Table of Contents

|                                 |   |            |
|---------------------------------|---|------------|
| <b>Chapter 1</b>                | General introduction and outline of thesis  | <b>7</b>   |
| <b>Chapter 2</b>                | Data collection: Sample selection and testing procedures  | <b>19</b>  |
| <b>Chapter 3</b>                | An fMRI study in monozygotic twins discordant for obsessive-compulsive symptoms   | <b>31</b>  |
| <b>Chapter 4</b>                | Brain activation during cognitive planning in twins discordant or concordant for obsessive-compulsive symptoms  | <b>53</b>  |
| <b>Chapter 5</b>                | Brain activation during response interference in twins discordant or concordant for obsessive-compulsive symptoms   | <b>81</b>  |
| <b>Chapter 6</b>                | White matter differences in monozygotic twins discordant or concordant for obsessive-compulsive symptoms: A combined Diffusion Tensor Imaging/Voxel-Based Morphometry study | <b>101</b> |
| <b>Chapter 7</b>                | The use of fMRI to detect neural responses to cognitive tasks: is there confounding by task related changes in heart rate?  | <b>119</b> |
| <b>Chapter 8</b>                | Sex differences in gray and white matter structure: converging evidence from complementary methods  | <b>139</b> |
| <b>Chapter 9</b>                | Obsessive-compulsive symptom related sex differences in brain structure   | <b>157</b> |
| <b>Chapter 10</b>               | Summary and Discussion  | <b>171</b> |
| <b>Nederlandse samenvatting</b> |   | <b>181</b> |
| <b>References</b>               |   | <b>189</b> |
| <b>Appendices</b>               |   | <b>209</b> |
| <b>Dankwoord</b>                |   | <b>223</b> |
