## Contents

Chapter 1. Introduction ........................................ 1

Chapter 2. Seroreactivity against Epstein-Barr Virus (EBV) among First-degree Relatives of Sporadic EBV-associated Nasopharyngeal Carcinoma in Indonesia
Journal of Medical Virology 2011, accepted ........................................ 75

Chapter 3. Epstein-Barr Virus (EBV) Serological Screening Combined with EBV DNA Load in Nasopharyngeal Brushings for Early-stage Nasopharyngeal Carcinoma in Individuals with Chronic Head and Neck Complaints
International Journal of Cancer 2011, submitted ........................................ 91

Chapter 4. Conserved Mutation of Epstein-Barr Virus Encoded BamHI-A Rightward Frame-1 (BARF1) Gene in Indonesian Nasopharyngeal Carcinoma
Infectious Agents and Cancer 2010, Sept 19;5:16 ........................................ 109

Chapter 5. Purified Hexameric Epstein-Barr Virus-Encoded BARF1 Protein for Measuring Anti-BARF1 Antibody Responses in Nasopharyngeal Carcinoma Patients
Clinical and Vaccine Immunology 2011, Feb 18:298-304 ........................................ 131

Chapter 6. Epigenetic Markers for Early Detection of Nasopharyngeal Carcinoma in A High Risk Population
Molecular Cancer 2011, May 2;10:48 ........................................ 147

Chapter 7. Development of A Non-invasive Method, Multiplex Methylation-specific PCR (MMSP) for Early Diagnosis of Nasopharyngeal Carcinoma
Plos One 2011, submitted ........................................ 163

Chapter 8. General Discussion ........................................ 175

Summary ........................................ 193
Samenvatting ........................................ 193
Intisari ........................................ 213

Words of Gratitude ........................................ 213
Curriculum Vitae ........................................ 213
