INHOUDSOPGAVE

Chapter 1	General Introduction	7
Chapter 2	Robot-assisted walking vs overground walking in stroke patients: an evaluation of muscle activity	19
Chapter 3	Exercise intensity of robot-assisted walking versus overground walking in non-ambulatory stroke patients	35
Chapter 4	Recovery of walking ability using a robotic device in stroke patients: a randomized controlled study	51
Chapter 5	The relationship between balance and knee extensor strength recovery after stroke: a follow-up study	71
Chapter 6	The effect of robotic gait training on the cardiorespiratory system in incomplete spinal cord injury	85
Chapter 7	Recovery of walking ability using a robotic device in individuals with incomplete spinal cord injury	105
Chapter 8	General Discussion	121
	Summary	141
	Samenvatting	147
	Dankwoord	153
	About the author	159
