CONTENTS

Chapter 1  9
General Introduction

Chapter 2  25
Excessive resections in breast-conserving surgery:
A retrospective multicentre study

Chapter 3  41
A comparison of three methods for nonpalpable breast cancer excision;
A retrospective multicentre study

Chapter 4  57
Is breast specimen shrinkage really a problem in breast-conserving surgery?

Chapter 5  69
Study protocol: Ultrasound-guided breast-sparing surgery to improve cosmetic outcomes and quality of life; A prospective multicentre randomised controlled clinical trial comparing ultrasound-guided surgery to traditional palpation-guided surgery (COBALT trial)

Chapter 6  87
Optimising surgical accuracy in palpable breast cancer with intra-operative breast ultrasound • feasibility and surgeons’ learning curve

Chapter 7  103
Intraoperative ultrasound guidance for palpable breast cancer excision: results of a multicentre, parallel group randomised controlled trial (COBALT)

Chapter 8  121
Ultrasound-guided surgery for palpable breast cancer is cost-saving: results of a cost-benefit analysis

Chapter 9  137
A Systematic Review of Oncoplastic Breast-conserving Surgery; Current Weaknesses and Future Prospects.

Chapter 10 - Summary and future perspectives  169
- Nederlandse samenvatting  179
- Curriculum vitae  189
- List of scientific publications  191
- List of scientific presentations  193
- Appendices  196
- Dankwoord  199
