Table of contents

Chapter 1
General introduction  11 - 38

Chapter 2
μ-Opioid receptors in the nucleus accumbens shell region mediate the effects of amphetamine on inhibitory control and not impulsive choice  41 - 61

Chapter 3
Cannabinoid CB1 receptor activation mediates the opposing effects of amphetamine on impulsive action and impulsive choice  65 - 84

Chapter 4
On the role of cannabinoid CB1 and µ-opioid receptors in motor impulsivity  87 - 100

Chapter 5
Relapse to heroin and sucrose seeking is associated with distinct patterns of in vivo endocannabinoid release in the rat medial prefrontal cortex  103 - 121

Chapter 6
General discussion  125 - 137

References  141 - 163

Summary in Dutch
Nederlandse samenvatting  165 - 174

Acknowledgments
Dankwoord  175 - 178

Curriculum vitae  179

List of peer-reviewed publications  180 - 181
