Contents

Chapter 1	General introduction	9
Chapter 2	Quantitative determination of erythrocyte folate vitamers distribution by liquid chromatography-tandem mass spectrometry.	25
Chapter 3	A liquid chromatography mass spectrometry method for the measurement of cystathionine β -synthase activity in cell extracts.	49
Chapter 4	Folic acid supplementation does not reduce intracellular homocysteine, and may disturb intracellular one-carbon metabolism.	67
Chapter 5	Plasma homocysteine concentration does not reflect intracellular liver homocysteine in rats.	87
Chapter 6	Determinants of the essential one-carbon metabolism metabolites, homocysteine, S-adenosylmethionine, S-adenosylhomocysteine and folate, in cerebrospinal fluid.	101
Chapter 7	Folic acid, a double-edged sword? Influence of folic acid on intracellular folate and dihydrofolate reductase activity.	119
Chapter 8	Folic acid impairs uptake of 5-methyltetrahydrofolate in primary human umbilical vein endothelial cells.	137
Chapter 9	Summary and general discussion.	153
Chapter 10	Nederlandse samenvatting.	167
Chapter 11	Post scriptum.	173
Chapter 12	List of publications.	177
