Acknowledgements

A

Angeli (for making an effort on the Nbea front)
Alenka (for providing valuable insights)
Alex (for helpful discussions)
Andreas (for focusing on birds, when the lions were scarce)
Arthur (for all the matlab help)
Asiya (for good company in rough times)

B

Bastijn (for the good spirit)
Bert (for taking care of the Nbea mice)
Bertrand (for being such an enthusiastic scientist)
Blaz (for never giving up on me)
Boukje (for providing me with beautiful cell cultures)
Bruce (for writing a Metamorph program especially for me)

C

Chris (for all the help with the "not so happy to mate" mice)
Cillian (for all the fun in the lab)

D

Desiree (for always getting the party started)

E

Els (for being so super-organized)
everyone else who I forgot to mention (sorry for that)

Acknowledgements

F

Fatima (for not giving up on Nbea)

Frank (for all the genotyping)

G

Gerard (for devoting time to my thesis)

Gregoire (for listening to all my bull*****)

Guus (for helping me with my rebuttals)

H

Hans (for being the ephys guru)

Heidi (for discussing EM possibilities)

Horst (for giving a slovenian psychologist a chance)

I

Ineke (for all the fun moments)

Ingrid (for being the best sensei a grasshopper could wish for)

J

Jan (for being so groove)

Jana (for inviting me for a beer after our first dutch class)

Jens (for making life in the lab more interesting)

Johannes (for making the software do whatever I wanted)

John (for being such an inspirational teacher)

Joke (for taking care of me and my mice)

Joost (for making me laugh when I felt like crying)

Judith (for devoting time to my thesis)

Julia (for culturing the chromaffin cells)

Jurjen (for fixing everything)

Justine (for being the best lab partner one could wish for)

K

Ka Wan (for all the support with the mass spec)

Kathy (for staying up till 3 a.m. to confocal)

L

Liselotte (for taking such good care of the mice)

M

Mami (for believing in me)

Matthijs (for making this project possible)

Marieke (for sharing the good and the bad times)

Marika (for your dry sense of humor)

Mark (for STORMing)

N

Niels (for teaching me how to patch)
Ning (for all the infos on IPs)
Noam (for moral support)

O

Oliver (for always taking the time to talk things through)

P

Patricia (for trying to solve the Nbea puzzle)
Paul (for introducing me to structured illumination microscopy)
Peter (for devoting time to my thesis)
Pim (for making sense of chaotic data)

R

Ramya (for being my sister in arms)
Ramesh (for the beautiful cell fractionations)
Rhea (for all the laughs we shared)
Rien (for counting all those vesicles)
Rita (for saving the planet)
Roel (for always being prepared to help)
Robbert (for being a friend)
Ruud (for always trying to answer my questions)

S

Sabine (for the troubleshooting in every sense)
Sander (for telling me the difference between the -20 and -80 freezers)
Savo (for sharing my point of view on Holland)
Sonja (for reminding me that science is not everything)
Sophie (for making statistics sound plausible)

T

Tatjana (for all the advice on immunocytochemistry)
Tina (for praying for sunny weather in A'dam)
Tinca (for all the statistical advice)
Tony (for trying some exciting live-cell experiments that never worked out)

V

Viki (for sharing insider immunocytochemistry tricks)

W

Will (for good advice when needed)
