## Content

Dankwoord (dedication).....

Samenvatting (summary).....

**1. Introduction**.....

1.2. Crater discovery

**2. Geological setting.**

2. 2. Description of studied sections.

*2.2.1 Ramonal North (distance from crater 340 km)*

*2.2.2 Ramonal South (distance from crater 340 km)*

*2.2.3 Agua Dulce (distance from crater 345 km)*

*2.2.4 Alvaro Obregon (distance from crater 350 km)*

*2.2.5 Albion Island (distance from crater 370 km)*

*2.2.6 Armenia (distance from crater 470 km)*

*2.2.7 Santa Teresa (distance from crater 580 km)*

*2.2.8 Central Belize, Maya Mountains (distance from crater 370 km)*

**Chapter 1: The discovery of the Cretaceous - Paleogene extraterrestrial impact crater site.**

- 1) Mexican site for K-T impact crater? .....
- 2) Surficial geology of the Chicxulub impact crater, Yucatan, Mexico.....
- 3) Surface expression of the Chicxulub crater.....

**Chapter 2: Discovery and investigation of the Chicxulub impact ejecta.**

- 1) Ejecta blanket deposits of the Chicxulub crater from Albion Island, Belize.

**Chapter 3: Distal ejecta of the Chicxulub impact crater.**

- 1) Chicxulub impact ejecta from Albion Island, Belize.

#### **Chapter 4: Geochemical signatures of the impact ejecta in Belize and Mexico.**

- 1) Trace element concentrations in the Mexico-Belize ejecta layer: A link between the Chicxulub impact and the global Cretaceous-Paleogene boundary.
- 2) Cathodoluminescence petrography and isotope geochemistry of KT impact ejecta deposit 360 km from the Chicxulub crater, at Albion Island, Belize.

#### **Chapter 5: Chicxulub and the global consequences for the fauna and flora.**

- 1) Unravelling the Cretaceous-Paleogene (KT) catastrophe: Evidence from flora fauna.

#### **Chapter 6: Impact modeling of Fluidized Ejecta Blankets (FEB).**

- 1) Impact winter and the Cretaceous/Tertiary extinctions: Results of a Chicxulub asteroid impact model.
- 2) Chicxulub impact ejecta deposits in southern Quintana Roo, México, and central Belize.

### **3. Perspectives.**

- 3.1 Main comparisons between the Spheroid Bed and the Diamictite Bed.
- 3.2 The formation of Fluidized Ejecta Deposits.
- 3.3 Emplacement mechanism for the Albion Island Formation.

### **4. FEBs on other planetary surfaces.**

- 4.1 The Chicxulub Fluidized Ejecta Blanket as an analogue to Mars FEBs.
- 4.2 Mechanisms of emplacement of Chicxulub's Fluidized ejecta deposits: Atmospheric drag sorting of ejecta.
- 4.3 The role of water in FEB formation.

### **5. Acknowledgement.**

### **6. References.**
