Contents

1. General Introduction 7

2. Seasonal dynamics in leachate hydrochemistry and natural attenuation in surface run-off water from a tropical landfill. 35

3. Microbial nitrogen transformation potential in surface run-off leachate from a tropical landfill. 59

4. Microbial community structure and dynamics in relation to hydrochemistry of surface run-off water from the Jatibarang landfill in Indonesia 81

5. Hydrochemical characterization of a tropical, coastal aquifer affected by landfill leachate and seawater intrusion. 99

6. General Discussion 115

   Samenvatting 123

   Summary 127

   Ringkasan 131
