# CONTENTS

Chapter 1  General introduction  7

Chapter 2  Diagnostic cerebrospinal fluid biomarkers for Parkinson's disease: a pathogenetically based approach  21

Chapter 3  Known biomarker candidates  51

3.1 Reduced α-synuclein levels in cerebrospinal fluid in Parkinson's disease are unrelated to clinical and imaging measures of disease severity  53

3.2 Changes in endolysosomal enzyme activities in cerebrospinal fluid of Parkinson's disease patients  65

3.3 Cerebrospinal fluid and plasma clusterin levels in Parkinson's disease  81

Chapter 4  Novel biomarker candidates  93

4.1 The proteome of the locus ceruleus in Parkinson's disease: relevance to pathogenesis  95

4.2 Identification of novel biomarker candidates in the cerebrospinal fluid proteome of drug-naïve Parkinson's disease patients  127

Chapter 5  Conclusions and general discussion  159

Chapter 6  Appendices  173
