TABLE OF CONTENTS

Chapter 1	General introduction and outline of this thesis	7
Chapter 2	Candidate driver genes in focal chromosomal aberrations of stage II colon cancer <i>J Pathol (2010)</i>	29
Chapter 3	Small bowel adenocarcinoma copy number profiles are more closely related to colorectal than to gastric cancers <i>Ann Oncol (2012)</i>	51
Chapter 4	High level copy number gains of established and potential drug target genes in gastric cancer as a potential lead for treatment development and selection <i>Cell Oncol (Dordr) (2013)</i>	73
Chapter 5	Genomic landscape of metastatic colorectal cancer <i>Submitted</i>	101
Chapter 6	Chromosome 20p11 gains are associated with liver-specific metastasis in patients with colorectal cancer <i>Gut (2013)</i>	151
Chapter 7	Chromosomal copy number aberrations in colorectal metastases resemble their primary counterparts and differences are typically non-recurrent <i>PLoS One (2014)</i>	175
Chapter 8	Summary & Discussion Nederlandse samenvatting	197
Chapter 9	Curriculum Vitae and Publications Dankwoord	211
