Patient-physician communication at the end of life: a European perspective

The research presented in this thesis was conducted within the EMGO Institute for Health and Care Research, Department of Public and Occupational Health of the VU University Medical Center, Amsterdam, the Netherlands.

Financial support for the research included in this thesis:

Marie Curie PhD Fellowship

Funding for Natalie Evans' Marie Curie PhD Fellowship came via EUROIMPACT funded by the European Union Seventh Framework Programme (FP7/2007–2013, under grant agreement nu [264697]).

EURO SENTIMELC

Funding for the EURO SENTIMELC came from the Institute for the Promotion of Innovation by Science and Technology in Flanders as a Strategic Basic Research project (SBO) (contract SBO IWT 050158) (2006–2010), as part of the 'Monitoring Quality of End-of-Life Care (MELC) Study'. Funding also came from the Italian Ministry of Health through the 'Evaluation, testing and implementation of supportive care, care interventions, integrated programs and improving the quality of care for cancer patients' program 'Integrated Oncology Project n°6, years 2008–2011', from the annual budgets of the Autonomous Community of Castilla y León and Comunitat Valenciana.

LASA

Funding for the Longitudinal Ageing Study Amsterdam came from the Ministry of Health, Welfare and Sports, Directorate of Long Term Care.

Qualitative interview data

Funding for the primary studies was obtained from the following sources: The Belgian Science Policy and VUB (Belgium); The Centre for Development of Palliative Care Amsterdam, and the Dutch Ministry of Health, Welfare and Sports (The Netherlands); and Dimpleby Cancer Care (UK).
