The research presented in this thesis was conducted at NIVEL, Netherlands Institute for Health Services Research, Utrecht, The Netherlands.

NIVEL participates in the Netherlands School of Primary Care Research (CaRe), which is acknowledged by the Royal Netherlands Academy of Arts and Sciences (KNAW). The studies were partly funded by the Dutch Ministry of Education, Culture and Science and the Dutch Ministry of Health, Welfare and Sports.
“Care and Quality are internal and external aspects of the same thing. A person who sees Quality and feels it as he works is a person who cares. A person who cares about what he sees and does is a person who’s bound to have some characteristic of Quality.”

Robert M. Pirsig
