CONTENTS

PART I: INTRODUCTION

Chapter 1	
Introduction	10

PART II: ANORECTAL DISORDERS

Fecal incontinence

Chapter 2	
Anorectal function evaluation and predictive factors for fecal incontinence in 600 patients	24
Chapter 3	
Critical reappraisal of anorectal function tests in fecal incontinence	44
Chapter 4	
Clinical response and sustainability of treatment with temperature-controlled radiofrequency energy (SECCA) in patients with faecal incontinence: 3 years follow-up	58

Constipation

Chapter 5	
Clinical examination remains more important than anorectal function tests to identify treatable conditions in women with constipation	72
Chapter 6	
Differences in taste between three polyethylene glycol preparations: a randomized double-blind study	86

Inflammatory bowel disease

Chapter 7	
Anorectal complications and function in patients suffering from inflammatory bowel disease: a series of patients with long-term follow-up	96

Obstretic anal sphincter injury

Chapter 8

Fecal incontinence, sexual complaints, and anorectal function after third-degree obstetric anal sphincter injury (OASI): 5-year follow-up **110**

Hemorrhoids

Chapter 9

A novel device reduces anal pain after rubber band ligation: randomized controlled trial **124**

PART III : SUMMARY

Summary **138**

Samenvatting **144**

提要 **150**

PART IV : ADDENDUM

Dankwoord **156**

Curriculum vitae **158**

List of publications **159**
