CONTENTS

PART I: INTRODUCTION

Chapter 1
Introduction

PART II: ANORECTAL DISORDERS

Fecal incontinence
Chapter 2
Anorectal function evaluation and predictive factors for fecal incontinence in 600 patients
Chapter 3
Critical reappraisal of anorectal function tests in fecal incontinence
Chapter 4
Clinical response and sustainability of treatment with temperature-controlled radiofrequency energy (SECCA) in patients with faecal incontinence: 3 years follow-up

Constipation
Chapter 5
Clinical examination remains more important than anorectal function tests to identify treatable conditions in women with constipation
Chapter 6
Differences in taste between three polyethylene glycol preparations: a randomized double-blind study

Inflammatory bowel disease
Chapter 7
Anorectal complications and function in patients suffering from inflammatory bowel disease: a series of patients with long-term follow-up
Obstetric anal sphincter injury
Chapter 8
Fecal incontinence, sexual complaints, and anorectal function after third-degree obstetric anal sphincter injury (OASI): 5-year follow-up

Hemorroids
Chapter 9
A novel device reduces anal pain after rubber band ligation: randomized controlled trial
