

Contents

1. Introduction	9
1.1 Background	10
1.2 Main objective and research questions	13
1.3 Research methods	14
1.4 Outline	15
2. The energy ladder: Theoretical myth or empirical truth?	17
2.1 Introduction	18
2.2 The energy ladder	19
2.3 Towards a comprehensive framework for modeling household energy choices	24
2.4 Drivers of the energy transition	29
2.5 Conclusions	38
3. The role of resource and market access on household fuel switching behavior in rural and peri-urban Kenya	41
3.1 Introduction	42
3.2 Theoretical background	43
3.3 Design and survey implementation	45
3.4 Results and discussion	49
3.5 Conclusions	61
4. The impact of the household decision environment on fuel choice behavior	63
4.1 Introduction	64
4.2 Background	65
4.3 Choice experiment design	68
4.4 Econometric model	70
4.5 Sampling design and survey implementation	72
4.6 Results	77
4.7 Conclusions	93
5. Urban demand for improved cookstoves and modern fuels in Mozambique	95

5.1 Introduction	96
5.2 Research design	98
5.3 Case study area and data collection	104
5.4 Results and discussion	105
6. Conclusions and Discussion	119
6.1 Answering the research questions	120
6.2 Suggestions for further research	126
6.3 Policy recommendations	129
References	131
Summary	141
Nederlandse samenvatting	145
Appendix	150
