# Renal and Pulmonary Aspects of Birt-Hogg-Dubé syndrome.

PhD Thesis

Paul Christiaan Johannesma

**Promotores:** Prof. dr. P.E. Postmus  
Prof. dr. R.J.A. van Moorselaar

**Co-promotores:** dr. F.H. Menko  
dr. J.H.T.M. van Waesberghe

The work presented in this thesis was performed at the Department of Pulmonary Diseases of the VU University Medical Center / VUmc Cancer Center Amsterdam (CCA), Amsterdam, The Netherlands

**Title PhD thesis:** Renal and Pulmonary Aspects of Birt-Hogg-Dubé syndrome.

**Version:** Review Committee

**Promotores:**

Prof. dr. P.E. Postmus

*Department of Pulmonary Diseases, VU University Medical Center, Amsterdam, The Netherlands  
Department of Thoracic Oncology, Clatterbridge Cancer Centre, Liverpool Heart & Chest Hospital,  
University of Liverpool, Liverpool, United*

Prof. dr. R.J.A. van Moorselaar

*Department of Urology, VU University Medical Center, Amsterdam, The Netherlands*

**Co-promotores:**

dr. F.H. Menko

*Family Cancer Clinic, The Netherlands Cancer Institute, Amsterdam, The Netherlands*

dr. J.H.T.M. van Waesberghe

*Department of Radiology, VU University Medical Center, Amsterdam, The Netherlands*

**Review Committee:**

Prof. dr. C.J.J. Mulder (Chairman)

*Department of Gastroenterology and Hepatology, VU University Medical Center, Amsterdam, The Netherlands*

Prof dr. ir. H.A. van Swieten

*Department of Cardiothoracic Surgery, Radboud University Medical Center, Nijmegen, The Netherlands*

*Department of Cardiothoracic Surgery, HagaZiekenhuis, 's Gravenhage, The Netherlands*

Prof. dr. M.P. Laguna

*Department of Urological Oncology, Amsterdam Medical Center, Amsterdam, The Netherlands*

dr. L.J. Meijboom

*Department of Radiology, VU University Medical Center, Amsterdam, The Netherlands*

dr. M. Kets

*Department of Clinical Genetics, Radboud University Medical Center, Nijmegen, The Netherlands*

# Contents

## **Chapter 0.1.**

General introduction and outline of the thesis.

## **Part one: Pulmonary manifestations.**

### **Chapter 1.1**

The pathogenesis of pneumothorax in Birt-Hogg-Dubé syndrome: a hypothesis.

*Respirology. 2014 Nov;19(8):1248-50.*

### **Chapter 1.2**

Presence of pulmonary cysts in BHD patients with and without a pneumothorax; a retrospective analysis of 61 patients.

*(Submitted).*

### **Chapter 1.3**

Radiological features of primary spontaneous pneumothorax patients with or without a mutation in *FLCN*.

*(Submitted).*

### **Chapter 1.4**

How reliable are clinical criteria in distinguishing between Birt-Hogg-Dubé syndrome and smoking as a cause for pneumothorax?

*Histopathology 2014;64(7)1045-6*

### **Chapter 1.5**

Risk of spontaneous pneumothorax due to air travel and diving in patients with Birt-Hogg-Dubé syndrome.

*(In revision)*

## **Chapter 1.6**

Prevalence of Birt-Hogg-Dubé syndrome in patients with apparently primary spontaneous pneumothorax.

*Eur Respir J. 2015;45(4):1191-4.*

## **Chapter 1.7**

International guidelines for pneumothorax are not adequate for treatment of spontaneous pneumothorax in patients with Birt-Hogg-Dubé syndrome.

*(Submitted)*

## **Part two: Renal manifestations.**

### **Chapter 2.1**

Renal cancer and pneumothorax risk in Birt-Hogg-Dubé syndrome; an analysis of 115 FLCN mutation carriers from 35 BHD families.

*Br J Cancer. 2011;105(12):1912-9.*

### **Chapter 2.2**

Are lung cysts in renal cell cancer (RCC) patients an indication for FLCN mutation analysis?

*Fam Cancer. 2016;15(2):297-300*

### **Chapter 2.3**

Renal imaging in 199 Dutch patients with Birt-Hogg-Dubé syndrome: Screening, compliance and outcome.

*(Submitted)*

## **Part three: Relevant case reports and case series.**

### **Chapter 3.1**

In-flight pneumothorax: diagnosis may be missed because of symptom delay.

*Am J Respir Crit Care Med. 2014;190(6):704-5.*

### **Chapter 3.2**

Spontaneous pneumothorax as indicator for Birt-Hogg-Dubé syndrome in paediatric patients.

*BMC Pediatr. 2014 Jul 3;14:171.*

### **Chapter 3.3**

Lung cysts as indicator for Birt-Hogg-Dubé syndrome.

*Lung. 2014;192(1):215-6.*

### **Chapter 3.4**

Spontaneous pneumothorax as the first manifestation of a hereditary condition with an increased renal cancer risk.

*Ned Tijdschr Geneeskd. 2009;153:A581.*

### **Chapter 3.5**

Facial fibrofolliculomas as indicator for renal cell cancer.

*Jpn J Clin Oncol. 2014;44(6):609-10.*

### **Chapter 3.6**

Bilateral renal tumour as indicator for Birt-Hogg-Dubé syndrome.

*Case Rep Med. 2014;2014:618675.*

### **Chapter 3.7**

A de novo FLCN mutation in a patient with spontaneous pneumothorax and renal cancer; a clinical and molecular evaluation.

*Fam Cancer. 2013;12(3):373-9.*

### **Chapter 4.1**

Summary of the thesis.

### **Chapter 5.1**

Future perspectives.
