CORRIGENDUM TO PhD THESIS:

“The University-Business Cooperation Ecosystem: an Evidence-Based Approach for the Management of European University-Business Cooperation”

Victoria Galan Muros

On page 101 of the submitted thesis, table 11 indicates the goodness of fit of the different models as shown below:

Table 11: Goodness of fit

	EDUCATION			RESEARCH		VALORISATION	
	CDD	LLL	SM	PM	R&D	ENT	COM
F	29.163	24.675	25.166	21.578	45.176	50.865	45.913
R2	0.324	0.288	0.292	0.262	0.426	0.454	0.432

However, upon a review of the said table (Table 11: Goodness of fit), minor inputting inaccuracies in the f-values have been detected, whereby the decimal point was one place to the left.

Additionally, the degrees of freedom of the F values (1,12) for each regression are added to the table as extra information.

The corrected table is as follows:

Table 11: Goodness of fit

	EDUCATION			RESEARCH		VALORISATION	
	CDD	LLL	SM	PM	R&D	ENT	COM
F	291.637	246.750	251.662	215.787	451.765	508.652	459.133
df	(1,12)	(1,12)	(1,12)	(1,12)	(1,12)	(1,12)	(1,12)
R2	0.324	0.288	0.292	0.262	0.426	0.454	0.432

It should be noted that this has absolutely no implications or impacts on any aspects of the PhD nor the results presented in the chapter.
