Table of contents

Chapter 1	
General introduction	7
Chapter 2	
Inflammatory markers and loss of muscle mass (sarcopenia) and strength	27
Chapter 3	
Higher inflammatory marker levels in older persons: associations with five-year change in muscle mass and muscle strength	47
Chapter 4	
The association of sex hormone levels with poor mobility, low muscle strength and incidence of falls among older men and women	65
Chapter 5	
Low testosterone levels and decline in physical performance and muscle strength in older men: findings from two prospective cohort studies	85
Chapter 6	
Older women and testosterone: the relationship with three-year decline in physical performance and muscle strength	105
Chapter 7	
Low testosterone levels and mortality in older men: results from the Longitudinal Aging Study Amsterdam (LASA)	121
Chapter 8	
General discussion	137
Summary	171
Samenvatting	177
Dankwoord	183
Curriculum Vitae	189
List of publications	189
