The inspiration to undertake this research work arose out of the context of an international conference which held at Houton in the Netherlands between 3-5 October, 2007, hosted by the Moluccan Theological Council, the International Reformed Theological Institute (IRTI) of the Vrije Universiteit, Amsterdam, the Centre for Public Theology, Stellenbosch University South Africa and the Protestant Church in the Netherlands. The conference theme was *Jesus in Context, Lost in Translation?*, provided a breeding ground for this research work, especially as it relates to the African cultural context. I left the conference with a notion that there seems to be a disparity between the propositional Christology of African Christian intellectuals and what obtains at ‘grass root’ or popular theology, especially as regards the experiences of the African Indigenous Churches. This informed my interest in undertaking this research work.

I am very grateful to my supervisor, Prof.(Dr.) Martien E. Brinkman, Professor of Ecumenical/Intercultural Theology and Director of the interdisciplinary VU Research Institute for the Study of Religion, Culture and Society (VISOR), who literarily took my thoughts in a raw form and transformed them into what we have in this research work. He took interest and accepted to accompany me as my supervisor. At critical stages of the work when the next step looked hazy, he shed light on my thoughts and urged me forward by constantly encouraging me. I thank him for guiding me through the research work to conform to acceptable theological form. I also acknowledge the significant help of Prof.(Dr.) Eddy Van de Borght, my alternate supervisor for his encouragements and critical comments at each stage of the work.

I am thankful to the faculty of theology for providing scholarship that enabled me to enrol in the Masters in Contextual and Cross-cultural Studies (2005); the Research Masters programme in Reformed Theology (2007) and subsequently the PhD programme, all at the Faculty of Theology at the VU University Amsterdam. These academic programmes have been most rewarding for me as an individual.
I am equally thankful to my professors, Prof. (Dr.) Henk Vroom, Prof. (Dr.) Hans De Wit who supervised my Master’s thesis. They were most helpful, kind and generous. I will not fail to mention Dr. Annette Mosher, Luzan Werts and Nienke Eikelboom who were equally wonderful and assisted at the administrative level.

I appreciate the friendship of my colleagues in the academic pilgrimage that began in 2005 in Amsterdam. I remember Paul Williams (India), Nelson B. Frimpong (Ghana), Emmanuel Teryila Atsor (Nigeria), Oane Reitsma (Netherlands), Emmanuel Ayedzi (Canada) and a host of others who provided friendship and support at critical points during my sojourn in the Netherlands.

At the home front in Nigeria, I wish to acknowledge the invaluable support of friends and senior colleagues like Rev. (Dr.) Kehinde Olabimtan, Rev. (Prof.) Deji Ayegboyin, Rev. (Dr.) E. Ayandokun, Miss Toluwalase Lawal, Miss Kehinde Olayiwola and Mrs. Adebiyi who at one time or the other made useful contributions or read through the manuscripts. I am indebted to my uncle, Prof. Richard Masagbor of the English language department of Benson Idahosa, University of Benin City who read through the manuscripts. I am also indebted to Mr. Ajibade Peters, the Director General of Administrative Staff College of Nigeria (ASCON), Topo, Badagry, who availed me the opportunity to use the institution’s facilities to work on my thesis. I am equally grateful to Mrs. Florence Onabanjo for equally assisting in this regards.

I thank my wife, Pastor (Mrs) Betty Aigbadumah, and my children, Aamanesi, Ejiro and Esikogie who accepted that I be away from them while undertaking this academic pursuit. I thank my late parents, Pa Ayo and Mrs. Regina Aigbadumah for their great love for me and sacrifice at critical stages of my education.

Above all, I am thankful to God, the giver of life and opportunities to explore the world He has created and to grasp knowledge and wisdom that are prerequisites for the continuous existence of man and society.
