Table of Contents

1 General Introduction 7
  1.1 Parkinson's disease 8
    1.1.1 PD manifestation 9
    1.1.2 Neuropathology and mechanism of action 10
    1.1.3 Molecular and cellular mechanisms of PD 11
    1.1.4 Treatment 13
    1.1.5 Neuroprotective treatment 14
  1.2 Pre-clinical aspects of Parkinson's disease 16
    1.2.1 Models for PD 16
    1.2.2 MPTP 18
    1.2.3 Mouse models 19
    1.2.4 Non-human primate models 20
  1.3 Riluzole 21
    1.3.1 Neuroprotective riluzole treatment 23
  1.4 Research aims 24

2 Two new test methods to quantify motor deficits in a marmoset model for Parkinson's disease 27
   Abstract 28
   2.1 Introduction 29
   2.2 Material and Methods 31
   2.3 Results 34
   2.4 Discussion 39

3 REM Sleep Behavior Disorder in the marmoset MPTP model for early Parkinson's disease 43
   Abstract 44
   3.1 Introduction 45
   3.2 Material and Methods 46
   3.3 Results 51
   3.4 Discussion 55
