# TABLE OF CONTENTS

## INTRODUCTION

**CHAPTER 1** General introduction

## TECHNICAL SECTION: DEVELOPMENT AND VALIDATION OF CT DETECTION AND GENOTYPING ASSAYS

**CHAPTER 2** A highly sensitive, multiplex broad-Spectrum PCR-DNA-enzyme immunoassay and reverse hybridization assay for rapid detection and identification of *Chlamydia trachomatis* serovars.

**CHAPTER 3** Evaluation of a novel PCR-based assay for detection and identification of *Chlamydia trachomatis* serovars in cervical specimens.

**CHAPTER 4** Comparison of the *Chlamydia trachomatis*-DT genotyping assay and Omp1 sequencing among different clinical samples from men and women.

**CHAPTER 5** Evaluation of a novel Ct microsphere suspension assay for detection and genotyping of the different serovars in clinical samples.

## NATURAL HISTORY: EPIDEMIOLOGY AND SEROVAR DISTRIBUTION OF C. TRACHOMATIS

**CHAPTER 6** *Chlamydia trachomatis* serovar distributions in Russian men and women: a comparison with Dutch serovar distributions correlated with ethnicity.

**CHAPTER 7** Analyses of multiple site and concurrent *Chlamydia trachomatis* serovar infections, and serovar tissue tropism for urogenital versus rectal specimens in male and female patients.

**CHAPTER 8** Anal infections with concomitant *Chlamydia trachomatis* genotypes among men who have sex with men in Amsterdam, the Netherlands.

**CHAPTER 9** Significantly higher serological responses of *Chlamydia trachomatis* B group serovars vs. C and I serogroups.

## THE ROLE OF C. TRACHOMATIS IN CERVICAL (PRE)MALIGNANT LESIONS

**CHAPTER 10** *Chlamydia trachomatis* and risk of prevalent and incident cervical premalignancy in a population based cohort.

**CHAPTER 11** Comprehensive analysis of Human Papillomavirus and *Chlamydia trachomatis* in situ and invasive cervical adenocarcinoma.
DISCUSSION AND CONCLUSIONS

CHAPTER 12  General discussion and conclusions
