Dankwoord

Dan blijft nu nog het laatste over van mijn proefschrift: het dankwoord. Ik moet zeggen dat ik het dankwoord schrijven erg lastig heb gevonden, vooral omdat je niemand wil vergeten of tekort wil doen. Daarnaast is het dankwoord het hoofdstuk dat het meest gelezen wordt en waarschijnlijk ook nog het eerste wat u leest van dit proefschrift. Om te voorkomen dat ik mensen vergeet te bedanken, wil ik bij deze alvast iedereen die dit leest hartelijk bedanken voor jullie steun! Dit gezegd hebbende, wil ik graag de volgende mensen persoonlijk bedanken.

Eli en Jeroen, met jullie als begeleiders kan een promovendus zich niet gelukkiger prijzen. Jullie zijn een fantastisch team samen! De vele discussies die we hadden. Ik zeg wel we, maar eigenlijk raakte ik vaak halverwege de draad kwijt in jullie zelf ontwikkelde onderzoekstaal, en zat ik net als bij een tenniswedstrijd de hele tijd van links naar rechts te kijken, totdat jullie het eens waren en mij weer konden uitleggen waar jullie het over eens waren geworden. Soms leken jullie net een getrouwd stel. Het was dan ook niet voor niets dat ik per ongeluk tijdens een presentatie zei: 'I'm a PhD student of Eli and Jeroen Smeets', wat natuurlijk tot grote hilariteit leidde in de zaal. Eli, ik wil jou graag bedanken voor de vele uurtjes waarin we experimenten aan het bedenken of uitwerken waren, de leuke congressen, het eten bij je familie en gewoon de kletspraatjes op de gang over het een of ander. Jeroen, ik wil jou graag bedanken voor de soms felle discussies over de analyses, experimenten, over toekomstplannen (ook wel het post aio-syndroom genoemd), en het feit dat de deur altijd open staat ondanks dat je het ontzettend druk hebt.

Margot en Willemijn, jullie waren super collega's (en nu vriendinnen)! Heerlijk om met jullie vele kopjes thee te hebben gedronken waarbij we lief en leed konden delen! Zo konden we keuvelen over niks en over de grote dingen des levens. Dat bleek ook wel uit de vele uren die we in het koffiepunt hebben gestaan ☺. Ik ben blij met jullie als vriendinnen!

Former group members: Hanneke, Krista, Chris, Denise, Stefan, Christa, Ilona, Rita, Leonie, Nienke, Dimitris, Devika, Rebekka, Rob, Myrthe, Maria, Marieke, Ramon, Katinka thanks a lot for all the nice chats and discussions that we had about research and other stuff.

Myrthe, het is uitzonderlijk dat we allebei in dezelfde ronde een Rubicon beurs hebben gekregen, en dan ook nog allebei op haptisch onderzoek. Het was altijd heerlijk sparren met je over experimenten. Hopelijk kom ik je nog vaak tegen op congressen. Veel succes in Bielefeld!

Maria, thanks a lot for choosing to do your master thesis with me. Your work has led to a chapter in this thesis and I hope we will publish our paper soon!

Krista, Elsje, Ilona, Bernadette, mijn oude kamergenootjes, dank jullie wel voor jullie gezelligheid en dat jullie naar mijn geklets wilden luisteren!

Frans-Jozef, het blijft bijzonder dat je vaak precies begreep wat ik graag wilde als ik weer met een wild idee voor een opstelling bij je binnen kwam. Meestal pakte het prototype uit als het uiteindelijke gebruikte onderdeel. Dank je wel voor de ondersteuning!

De proefpersonen die uren in mijn opstelling hebben gezeten: Dank jullie wel! Zonder jullie was er geen proefschrift.

Alle aio's en medewerkers van de faculteit, dank jullie wel voor de gezellige borrels en alle andere activiteiten die we samen hebben ondernomen. In het bijzonder noem ik nog: Janwillem (voor de vele theepauzes en gezelligheid), Astrid (veel gezelligheid), Melvyn (mijn buur), Rouwen (mijn andere buur) en Kirsten (altijd tijd voor een goed advies).

Het secretariaat en dan in het bijzonder Eugène, dank voor al goede jullie zorgen.

In the second year of my PhD project I spent two weeks at a Visual Neuroscience Summerschool in Rauischholzhausen. Those weeks were great! Every conference I run into people that I met at the summerschool. This makes these conferences a lot more fun! Thanks to: Jochen, Karl and Frank for organizing these summerschools and to the students: Arjen, Alexander, Marianne, Donatas, Matteo, Elisabeth, Anna, Milena, Ariel, Anja, Carsten, Gesche, Chris, Tom, Yixing, Toni, Jan, Anushree, Katrin, Therese, Jose, Paola, Linus, Patrick, Chris, Elisabeth, Sebastien, Patricia, Erin, Jen, Kelly and Jan. I hope we will meet soon!

Verder wil ik nog graag mijn vrienden en familie bedanken, ook al was het meestal lastig uitleggen wat ik nu precies aan het doen was. Maar jullie steun was altijd aanwezig! Bedankt daarvoor!

Lieve papa en mama, ik wil jullie graag bedanken voor alle liefde, zorg, steun en gezelligheid. Lieve Annelieke, ik ben er trots op dat jij mijn zus bent!

En dan als allerlaatste mijn lief, Melchior, je bent mijn steun en toeverlaat. Je onvoorwaardelijke liefde betekent heel veel voor me. Ik hou van je!
