Investigating Institutional Arrangements for Integrated Water Resource Management in Developing Countries: The Case of White Volta Basin, Ghana

List of Tables	10
List of figures	11
List of boxes	11
Executive Summary	12
1. Introduction	33
1.1 Background	33
1.2 Problem Definition	35
1.3 Problem Definition for Ghana	39
1.4 Research Questions	40
1.5 Importance of the Research	41
1.6 Methodology	41
1.6.1 The Scope of the Study	41
1.6.2 Theoretical Framework	41
1.6.3 Literature	44
1.6.4 The Case Study Methodology	44
1.6.4.1 Choice of Case Study	44
1.6.4.2 Selection of the Study Organisations/agencies	45
1.6.4.3 Sources of Data	47
1.6.4.4 Methods of Data Collection	47
1.6.5 Institutional Analysis	48
1.6.6 Limitations of the Study	48
1.7 Structure of the Thesis	48
2. Integrated Water Resource Management: Understanding the Concept	50
2.1 Introduction	50
2.2 Evolution of the Integrated Water Resources Management Concept	50
2.3 What is Integrated Water Resources Management?	53
2.3.1 Related Concepts	53
2.3.2 IWRM Defined	54
2.4 Different Views on IWRM	57
2.5 The Elements of IWRM	58
2.6 The Principles of IWRM	59
2.6.1 Comprehensive View Point	60
2.6.2 Recognition of Water as an Economic Good	61
2.6.3 Stakeholder Participation	62
2.6.4 The Gender Sensitivity Principle	63
2.7 Approaches to IWRM	64
2.8 The Process of IWRM	65

2.9 Strengths and Weaknesses of IWRM	67
2.10 Summary and Inferences	70
3. IWRM Experiences in Developed and Developing Countries	72
3.1 Introduction	72
3.2 Interpretation of IWRM	72
3.3 The Implementation of IWRM	75
3.3.1 Experiences from Developed Countries	75
3.3.2 Experiences from Developing Countries	78
3.3.3 Types of Implementation Processes	83
3.4 Factors Responsible for Varying Complexities/Challenges in Different Countries	84
3.5 Inferences	87
4. The Theory of Institutions and Water Governance	88
4.1 Introduction	88
4.2 What are Institutions?	88
4.2.1 Institutions Defined	88
4.2.2 Nature and Characteristics of Institutions	90
4.2.3 Institutions and Organisations	91
4.2.4 How Institutions Shape Human Behaviour	93
4.3 Role of Institutions	95
4.4 Institutional Arrangements	96
4.5 Institutional Changes	97
4.6 Factors that Determine the Performance of Institutions	100
4.7 Water Law, Water Policy and Administration	101
4.7.1 Separation of Functions	102
4.7.2 Monitoring and Enforcement	103
4.7.3 Water Rights	103
4.7.4 Administering Water Rights	104
4.8 The Problems of Fit, Interplay, and Scale	105
4.9 Water Governance	106
4.10 Attributes of 'Good' Water Governance	109
4.11 Inferences	110
5. Ghana Water Management at the National Level	111
5.1 Introduction	111
5.2 Water Situation in Ghana	111
5.3 International Developments	113
5.4 Historical Perspective of Ghana Water Laws and Policies	116
5.4.1 Pre-colonial Customary Law Period (till 1874)	116
5.4.2 Colonial Water Regime (1874 – 1957)	117
5.4.3 Post-Colonial Era (Pre-IWRM) Water Policy (1957-1998)	118
5.4.4 The Modern Era (1998-2010)	120
5.4.4.1 Period of Structural Changes	120
5.4.4.2 The Water Resources Commission	121
5.4.5 Legislative Framework for Water Governance	125
5.4.6 National Water Policy	126

5.5 The Transition	128
5.5.1 The IWRM Concept in Water Resources Management in Ghana	130
5.5.2 IWRM Implementation Processes	130
5.5.3 Collaboration of WRC with other Organisations	133
5.6 Inferences	134
6. Water Management at the White Volta Basin	136
6.1 Introduction	136
6.2 The White Volta Basin: Facts	136
6.3 Water Management Institutions and Organisations/Actors	138
6.3.1 Government Organisations/Actors	138
6.3.1.1 Ghana's Local Governance System	138
6.3.1.2 District Assemblies	139
6.3.1.3 Ministry of Food and Agriculture (MOFA)	141
6.3.1.4 Ghana Irrigation Development Authority (GIDA)	142
6.3.1.6 Community Water and Sanitation Agency (CWSA)	143
6.3.1.7 Ministry of Fisheries	144
6.3.1.8 Hydrology Department and Meteorological Service	144
6.3.1.9 Volta River Authority	144
6.3.1.10 Research bodies	145
6.3.2 Other Bodies (Commissions)	145
6.3.2.1 Water Resources Commission	145
6.3.2.2 Minerals Commission	147
6.3.2.3 Lands Commission	147
6.3.2.4 Forestry Commission	147
6.3.3 Traditional Institutions	148
6.3.4 Community Level Organisations	149
6.3.5 Donor Funded (International) Programmes/Projects in the Basin	150
6.4 Non-Governmental Organisations (NGOs) at the Basin	151
6.5 Private Sector	153
6.5.1 Technical Assistance Consultancies	153
6.5.2 Ghana Water Company Ltd.	153
6.5.3 Irrigation Company of the Upper East Region (ICOUR)	155
6.6 Organisational Linkages and Interactions in the Basin	155
6.6.1 Levels of Coordination	155
6.6.2 Types of Coordination	156
6.6.3 Coordination Mechanisms for Water Resources Management	157
6.6.4 Existing Coordination Mechanisms	158
6.6.4.1 <i>Public Sector Organisations</i>	158
6.6.4.2 <i>NGOs and the Private Sector</i>	159
6.6.4.3 <i>Community Based Organisations</i>	159
6.7 Implications for Water Resource Management	160
6.8 Implications for the White Volta Basin Office	161
6.9 IWRM Processes at the Basin	163
6.10 Inferences	164

7. IWRM and Basic Needs: Potable Water Supply in the White Volta Basin	165
7.1 Introduction	165
7.2 Reforms for IWRM Implementation in Potable Water Delivery	165
7.2.1 Reforms in Rural Water Supply	165
7.2.2 Reforms in Urban Water Supply	167
7.2.3 The Environmental Sector	168
7.3 Institutional Arrangements for Rural/Community Water Delivery	168
7.3.1 Organisational Structure and Linkages for Community Water Delivery	168
7.3.2 Management Processes and Principles	171
7.3.2.1 Single Point Systems	171
7.3.2.2 Small Town Pipe System	172
7.3.3 Borehole/Well Provision	175
7.3.4 Regulation and Controls	177
7.3.5 Pricing and Financing	177
7.4 Institutional Arrangement for Urban Water Delivery	178
7.4.1 Organisational Structure and Linkages	178
7.4.2 Operations/Coverage and Beneficiaries	179
7.4.3 Public-Private Partnership	182
7.4.4 Regulatory Structures and Pricing of Urban Potable Water	183
7.5 Inferences	184
8. IWRM and Livelihoods at the White Volta Basin	186
8.1 Introduction	186
8.2 Socioeconomic Activities at the White Volta Basin	186
8.2.1 Agriculture	186
8.2.1.1 <i>Land Tenure System</i>	188
8.2.1.2 <i>Fishing</i>	188
8.2.2 Commerce	188
8.2.3 Small and Medium Scale Industries	188
8.3 Institutional Arrangement for Irrigated Agriculture	188
8.3.1 Policies and Legislation	189
8.3.2 Water Management in Irrigated Agriculture	190
8.3.3 Large Scale Irrigation Schemes	191
8.3.3.1 Organisational Structure and Operations of ICOUR	191
8.3.3.2 Accessibility to Water for Agricultural Production	193
8.3.3.3 Farmer Cooperatives	194
8.3.4 Small Dams and Wells	195
8.3.5 Irrigation along the White Volta Using Water Pumps	197
8.3.6 Collective Interest and Group Action	199
8.3.6.1 <i>The Case of Winkogo Dam Area</i>	199
8.3.6.2 <i>The Case of Binduri Dam Area</i>	201
8.4 Water Management for Fish Production	203
8.4.1 Institutional Arrangements for Fish Management	203
8.4.2 Strategies for Managing Water for Fish Production	204
8.4.3 Fishing and Traditional Authorities	206
8.5 Industrial Water Use	207

8.6 Inferences	208
9. Interactions among Water Institutions and Agencies for Transboundary Management	210
9.1 Introduction	210
9.2 General Characteristics of the Basin	210
9.3 International Level Legal and Organisational Changes and Relationships	211
9.3.1 Ghana Burkina Faso Joint-Technical Committee on Integrated Water Resources Management	212
9.3.2 The GEF Volta Project	214
9.3.3 The IUCN and GWP ‘Improving Water Governance in the Volta River Basin’ (PAGEV)	214
9.3.4 The GLOWA-Volta Project	216
9.3.5 ECOWAS Water Resources Coordination Centre	216
9.4 National, Intermediate and Local Institutional Responses	218
9.4.1 PAGEV and Local Basin Management Processes	218
9.4.2 Policy and Institutional Frameworks	218
9.5 New institutions and organisations versus existing institutions and organisations	220
9.5.1 IWRM and Alternative Livelihood	221
9.5.2 The Sakom Water User Association	222
9.6 The Roles of Formal and Informal Institutions at the Local Level and their Linkages	225
9.7 Basin Organisational and Institutional Changes	226
9.7.1 Types and nature	226
9.7.2 Outcomes	227
9.8 Inferences	228
10. Conclusions and Recommendations	230
10.1 Recapitulating Research Questions	230
10.2 Conclusions for Ghana	230
10.2.1 Factors of Change Leading to Adoption of IWRM in Ghana	231
10.2.2 Adopting IWRM against the Background of Decentralisation and Shift to Governance	234
10.2.2.2 <i>Linkages among Water Organisations</i>	236
10.2.3 Interpretation of IWRM in Ghana	237
10.2.4 Strengths and Weaknesses of the IWRM Approach in Ghana	238
10.2.5 Implications for Theory	240
10.3 Conclusion for IWRM Practice in Ghana	243
10.4 Recommendations for Ghana	244
10.5 Implication for Other Developing Countries	245
References	247
