Table of contents

Chapter 1. General introduction and aim 9

Chapter 3. Identification of CXCR3-CXCR4 chemokine receptor complexes and heteromer-specific β-arrestin recruitment 67

Chapter 4. Inhibition of CXCR3-mediated chemotaxis by the human chemokine receptor-like protein CCX-CKR 93

Chapter 5. Hidden signaling properties of the chemokine decoy receptor CCX-CKR 123

Chapter 6. Label-free impedance responses of endogenous and synthetic chemokine receptor CXCR3 agonists correlate with G-protein pathway activation 157

Chapter 7. General discussion 175
