## CURRICULUM VITAE

Madeleine de Gruijter (April 8<sup>th</sup> 1986, The Hague) started her study Criminology at the VU University Amsterdam in 2006. During her bachelor, she worked at the Netherlands Institute for the Study of Crime and Law Enforcement (NSCR) and investigated the production of written police records of interrogations. After obtaining her bachelor degree in 2009 she started her master Criminology. During her master, she took part in Project Gereede Twijfel, a project conducting research into alleged miscarriages of justice, and worked as an intern at the NSCR. Next to that, she participated in an additional research program. For her master thesis, she conducted empirical research on scenario construction by police detectives. In 2012, she finished both her master and the research program and graduated cum laude. In August 2012, she started as a PhD candidate in the Forensic Science research group at the Amsterdam University of Applied Sciences. In 2015, she obtained a PhD bursary from the Psychology department of the University of Portsmouth and conducted research for her PhD research with English University students and Crime Scene Investigators for two months. The overall research project of which her PhD research was part is awarded with a RAAK-Award (3<sup>rd</sup> place). The prize is awarded to leading applied research projects at Dutch universities of applied sciences (Hogescholen), funded by the Stichting Innovatieve Alliantie (SIA).
