

# **Supportive care in head and neck cancer patients**

## **Patient-reported needs and costs**

**Femke Jansen**

A stylized, layered illustration of a human head and neck in profile, facing left. The colors transition from light blue and green at the top to yellow and orange at the bottom. The illustration is composed of various overlapping shapes and gradients, creating a textured, artistic effect. The background is a mix of these colors, with some areas being more saturated than others.
