## TABLE OF CONTENTS

List of figures	11
List of tables	13
<b>Chapter 1</b> Introduction	15
1.1. Pension fund operational efficiency	19
1.1.1. Policy implications for pension fund operational efficiency	22
1.2. Financial markets informational efficiency	23
1.2.1. Policy implications for financial markets informational efficiency	25
<b>Part I</b> Pension fund operational efficiency	27
<b>Chapter 2</b> Scale economies in pension fund investments	29
2.1. Introduction	31
2.2. Data and methodology	35
2.2.1. Definition of variables	35
2.2.2. Investment costs and descriptive statistics	39
2.2.3. Methodology	43
2.3. Investment costs at the pension fund level	45
2.3.1. Main findings	45
2.3.2. Asset allocation results	46
2.3.3. Fixed income allocation to credit ratings	48
2.3.4. Basic regression when not controlling for asset allocation	48
2.4. Investment costs at the asset class level	51
2.5. Robustness checks	56
2.5.1. Piecewise linear regressions at the pension fund level	56
2.5.2. Piecewise linear regressions at the asset class level	62
2.5.3. Cross-sectional regression for year 2015	63
2.6. Conclusions	64
<b>Chapter 3</b> Does it pay to pay performance fees?	67
3.1. Introduction	69
3.2. Data	73
3.2.1. Definition of variables	74
3.2.2. Descriptive statistics	77
3.3. Methodology	81
3.3.1. Performance fees and net returns	81
3.3.2. Performance fees drivers	82
3.3.3. Pension fund specific characteristics	83
3.3.4. Bootstrap procedure	84
3.4. Empirical results	84
3.4.1. Performance fees and net returns: does it pay to pay?	84
3.4.2. Drivers of performance fees: gross excess or gross total return?	86
3.4.3. Drivers of performance fees: size and specialization	88
3.5. Robustness checks	90

3.5.1. Controlling for return persistence	90
3.5.2. Controlling for risk	93
3.5.3. Controlling for individual investment mandates	95
3.6. Conclusions	97
3.7. Appendix A	99
<b>Chapter 4</b> What drives pension indexation in turbulent times?	103
4.1. Introduction	105
4.2. Indexation in the Dutch pension system	108
4.3. Data	110
4.3.1. Definition of variables	111
4.3.2. Descriptive statistics	114
4.4. Empirical results on the drivers of indexation	117
4.4.1. Methodology	117
4.4.2. Tobit regression results	119
4.4.3. Marginal effects for observed inflation	124
4.5. Empirical results on policy ladders	126
4.5.1. Methodology	126
4.5.2. Policy ladders	128
4.6. Conclusions	132
<b>Part II</b> <b>Financial markets informational efficiency</b>	135
<b>Chapter 5</b> A closer examination of the U.S. presidential cycle puzzle	137
5.1. Introduction	139
5.2. Data	142
5.2.1. Financial variables	142
5.2.2. Political variables	143
5.2.3. Control variables	145
5.3. Model and main findings	146
5.3.1. Presidential cycle effect in the U.S. stock market	146
5.3.2. Presidential cycle effect in the U.S. corporate bond market	148
5.4. Possible explanations	149
5.4.1. Business cycle explanation	149
5.4.2. Time-varying risk explanation	150
5.4.3. PEC hypothesis explanation	150
5.4.4. Expected versus unexpected returns explanation	157
5.4.5. Sentiment explanation	159
5.5. Conclusions	162
5.6. Appendix B	164
<b>Chapter 6</b> Summary	167
<b>Chapter 7</b> References	173
