# Contents

Evolution of linoleic acid biosynthesis in Collembola and different species of arthropods.....	i
Contents.....	iii
1. Introduction.....	1
2. An evolutionary perspective on linoleic acid synthesis in animals.....	12
3. Ecomorphological adaptation in Collembola in relation to feeding strategies and habitat.....	33
4. <i>De novo</i> synthesis of linoleic acid in multiple Collembola species.....	56
5. Feeding preference and spermatophore choice of Collembola in relation to dietary linoleic acid content.....	71
6. Biosynthesis of linoleic acid in different species of Arthropoda.....	84
7. Functional characterization of a $\Delta 12$ desaturase gene from <i>Nasonia vitripennis</i> .....	99
8. Discussion.....	112
Bibliography.....	123
Summary.....	145
Samenvatting.....	147
Acknowledgment.....	149
Curriculum Vitae.....	150
Publications.....	151
Affiliation of co-authors.....	154
