CONTENTS

Chapter 1: General introduction and Scope of this Thesis	7
Adapted in part from “The rise of allogeneic Natural Killer cells as a platform for cancer immunotherapy: Recent innovations and future developments” <i>Frontiers in Immunology, 2017</i>	
Chapter 2: Standardized and flexible eight colour flow cytometry panels harmonized between different laboratories to study human NK cell phenotype and function	35
<i>Scientific Reports, 2017</i>	
Chapter 3: High-efficiency lysis of cervical cancer by allogeneic NK cells derived from umbilical cord progenitors is independent of HLA status	73
<i>Cancer Immunology and Immunotherapy, 2017</i>	
Chapter 4: Combination of NK cells and cetuximab to enhance anti-tumor responses in RAS mutant metastatic colorectal cancer	95
<i>PLOS ONE, 2016</i>	
Chapter 5: In vivo efficacy of umbilical cord blood stem cell-derived NK Cells in the treatment of metastatic colorectal cancer	119
<i>Frontiers in Immunology, 2017</i>	
Chapter 6: General discussion and Future Prospects	143
Adapted in part from “The rise of allogeneic Natural Killer cells as a platform for cancer immunotherapy: Recent innovations and future developments” <i>Frontiers in Immunology, 2017</i>	
Chapter 7: Summary	163
Nederlandse samenvatting	166
Curriculum vitae	169
List of publications	170
Acknowledgements	172
