models for Tuberous sclerosis complex  
using human stem cells**

Aishwarya Geeyarpuram Nadadhur

Printed by: Ipskamp printing

Cover image painting and design: Aishwarya G. Nadadhur

Layout: Aishwarya G. Nadadhur

ISBN:

The cover image depicts the nature of stem cells and their versatility. The colorful line streaks around them depict the wide range of opportunities that stem cells bring to the field of human research.

The work described in this thesis was supported by the Department of Functional Genomics (CNCR), Amsterdam and Marie curie fellowship under EU MSCA-ITN CognitionNet (FP7-PEOPLE-2013-ITN 607508).
