Table of contents

| | | |
|-----------------|---|-----|
| Part 1 | Introduction | |
| Chapter 1 | General introduction, aims and outline | 11 |
| Chapter 2 | Subjective Cognitive Impairment Cohort (SCIENCE): study design and first results | 23 |
| Part 2 | Structural magnetic resonance imaging and brain connectivity | |
| Chapter 3 | Thinner temporal and parietal cortex is related to incident clinical progression to dementia in patients with subjective cognitive decline | 47 |
| Chapter 4 | Thinner cortex in patients with subjective cognitive decline is associated with steeper decline of memory | 65 |
| Chapter 5 | A more randomly organized grey matter network is associated with deteriorating language and global cognition in individuals with subjective cognitive decline | 81 |
| Chapter 6 | Subjective cognitive decline is associated with altered default mode network connectivity in individuals with a family history of Alzheimer's Disease | 99 |
| Part 3 | Amyloid imaging | |
| Chapter 7 | Quantification of [¹⁸ F]florbetapir: a test-retest tracer kinetic modelling study | 121 |
| Chapter 8 | Amyloid accumulation is associated with fewer specific words during spontaneous speech in subjective cognitive decline | 139 |
| Chapter 9 | Amyloid-β load is related to worries, but not to severity of cognitive complaints in individuals with subjective cognitive decline: the SCIENCE project | 155 |
| Part 4 | Discussion | |
| Chapter 10 | Summary, general discussion and conclusions | 171 |
| Chapter 11 | Dutch Summary (Nederlandse samenvatting en discussie) | 191 |
| Addendum | | |
| | Words of appreciation (Dankwoord) | 215 |
| | List of dissertations Alzheimercenter | 221 |
| | List of author affiliations | 225 |
| | List of publications | 229 |
| | Portfolio | 233 |
| | Curriculum vitae | 235 |
