

## CONTENTS

List of abbreviations	8
<b>Chapter 1</b> General introduction and outline of this thesis	9
<b>Part I</b> <b>Leukoencephalopathy with brainstem and spinal cord involvement and lactate elevation (LBSL)</b>	
<b>Chapter 2</b> Leukoencephalopathy with brainstem and spinal cord involvement and lactate elevation: clinical and genetic characterization and target for therapy	27
<b>Chapter 2.2</b> Reply: <i>DARS2</i> gene clinical spectrum: new ideas regarding an underdiagnosed leukoencephalopathy	53
<b>Part II</b> <b>Megalencephalic leukoencephalopathy with subcortical cysts (MLC)</b>	
<b>Chapter 3</b> Megalencephalic leukoencephalopathy with subcortical cysts: characterization of disease variants	59
<b>Part III</b> <b>Hypomyelination with atrophy of the basal ganglia and cerebellum (H-ABC)</b>	
<b>Chapter 4</b> Hypomyelination with atrophy of the basal ganglia and cerebellum: further delineation of the phenotype and genotype-phenotype correlation	79
<b>Chapter 4.2</b> Reply: <i>TUBB4A</i> novel mutation reinforces the genotype-phenotype correlation of hypomyelination with atrophy of the basal ganglia and cerebellum	109
<b>Chapter 4.3</b> Reply: A novel <i>TUBB4A</i> mutation suggests that genotype-phenotype correlation of H-ABC syndrome needs to be revisited	115
<b>Chapter 5</b> <i>UFM1</i> founder mutation in the Roma population causes recessive variant of H-ABC	119
<b>Part IV</b> <b>Vanishing White Matter (VWM)</b>	
<b>Chapter 6</b> The natural history of Vanishing White Matter (1): disease course	143
<b>Chapter 7</b> The natural history of Vanishing White Matter (2): quality of life	167

**Part V      Conclusions****Chapter 8** Summary and general discussion 193**Part VI      Appendices****Chapter 9** Nederlandse samenvatting 233
