CONTENTS

List of abbreviations	8
Chapter 1 General introduction and outline of this thesis	9
Part I Leukoencephalopathy with brainstem and spinal cord involvement and lactate elevation (LBSL)	
Chapter 2 Leukoencephalopathy with brainstem and spinal cord involvement and lactate elevation: clinical and genetic characterization and target for therapy	27
Chapter 2.2 Reply: <i>DARS2</i> gene clinical spectrum: new ideas regarding an underdiagnosed leukoencephalopathy	53
Part II Megalencephalic leukoencephalopathy with subcortical cysts (MLC)	
Chapter 3 Megalencephalic leukoencephalopathy with subcortical cysts: characterization of disease variants	59
Part III Hypomyelination with atrophy of the basal ganglia and cerebellum (H-ABC)	
Chapter 4 Hypomyelination with atrophy of the basal ganglia and cerebellum: further delineation of the phenotype and genotype-phenotype correlation	79
Chapter 4.2 Reply: <i>TUBB4A</i> novel mutation reinforces the genotype-phenotype correlation of hypomyelination with atrophy of the basal ganglia and cerebellum	109
Chapter 4.3 Reply: A novel <i>TUBB4A</i> mutation suggests that genotype-phenotype correlation of H-ABC syndrome needs to be revisited	115
Chapter 5 <i>UFM1</i> founder mutation in the Roma population causes recessive variant of H-ABC	119
Part IV Vanishing White Matter (VWM)	
Chapter 6 The natural history of Vanishing White Matter (1): disease course	143
Chapter 7 The natural history of Vanishing White Matter (2): quality of life	167

Part V Conclusions**Chapter 8** Summary and general discussion 193**Part VI Appendices****Chapter 9** Nederlandse samenvatting 233
