# Contents

1 Introduction  
1.1 Motivation .......................... 1  
1.2 Research Questions .................. 4  
1.3 Research Approach .................. 8  
1.4 Research Method .................... 10  
1.5 Practical Relevance .................. 12  
1.6 Scientific Relevance .................. 13  
1.7 Thesis Outline ....................... 13  

2 Enterprise Architects Should Follow the Money  
2.1 Introduction ......................... 19  
2.2 Research Method ..................... 21  
  2.2.1 Search Process ..................... 21  
  2.2.2 Search Results ..................... 22  
  2.2.3 Data Extraction and Synthesis ....... 23  
2.3 Results ................................ 24  
  2.3.1 Demographic Data ................... 24  
  2.3.2 Kind of Decision ................... 26  
  2.3.3 Decision Approach .................. 26  
  2.3.4 Decision-makers and Stakeholders .... 29  
  2.3.5 Involvement of EA .................. 29  
  2.3.6 Quality of the Results ............. 30  
2.4 Discussion .......................... 30  
  2.4.1 Impacts on Research and Practice .... 30  
  2.4.2 Study Limitations and Threats to Validity ... 33  
2.5 Conclusion ......................... 34  

3 The Decision-making Context Influences the Role of the Enterprise Architect  
3.1 Introduction ......................... 37  
3.2 Related Work ......................... 38  
3.3 Research Approach .................... 39  
  3.3.1 Research Method ................... 39  
  3.3.2 Case Study Organizations .......... 40  
  3.3.3 Case Study Subject ................ 40  
  3.3.4 Data Collection .................... 41  
  3.3.5 Data Analysis ..................... 42  
3.4 Results ................................ 43  
  3.4.1 Portal & Collaboration ............. 43
3.4.2 Digital Workplace ........................................ 45
3.4.3 Enterprise App Store .................................... 47
3.5 Discussion .................................................... 48
3.5.1 Implications for Enterprise Architecture ............ 48
3.5.2 Study Limitations and Threats to Validity .......... 52
3.6 Conclusion ................................................... 53

4 Enterprise Architects Should Play Different Roles 55
4.1 Introduction ................................................... 55
4.2 Theoretical Framework ..................................... 56
4.2.1 Linkages between IT Decisions .................... 56
4.2.2 Enterprise Architecture .............................. 57
4.3 Research Approach ........................................ 58
4.3.1 Research Method ....................................... 58
4.3.2 Case Study Organization ............................. 58
4.3.3 Case Study Subject .................................... 59
4.3.4 Data Collection ......................................... 59
4.3.5 Data Analysis ........................................... 60
4.4 Results ......................................................... 61
4.4.1 Sequential Linkages ................................. 61
4.4.2 Precursive Linkages ................................. 64
4.4.3 Lateral Linkages ....................................... 66
4.5 Discussion ..................................................... 67
4.5.1 Implications for EA ................................... 67
4.5.2 Study Limitations and Threats to Validity ....... 74
4.6 Conclusion ................................................... 74

5 Empirical Insights into the Evolving Role of Architects in Decision-making in an Agile Context 77
5.1 Introduction ................................................... 77
5.2 Related Work ................................................ 79
5.3 Research Approach ........................................ 80
5.3.1 Research Method ....................................... 80
5.3.2 Case Study Organization ............................. 80
5.3.3 Data Collection ......................................... 82
5.4 Results ......................................................... 84
5.4.1 Decision Types ......................................... 84
5.4.2 Involvement in Decision-making .................. 85
5.4.3 Perception about Architectural Participation in Decision-making ........................................ 88
5.5 Discussion ................................................... 90
6 An Empirical Investigation of the Relationship between Enterprise Architecture Maturity and the Quality of IT Investment Decisions

6.1 Introduction

6.2 Theoretical Background

6.2.1 Enterprise Architecture

6.2.2 Quality of IT Investment Decisions

6.3 Research Design

6.3.1 Research Model

6.3.2 Research Methodology

6.4 Results

6.4.1 Descriptives and Representativeness

6.4.2 EA Maturity and Quality of IT Investment Decisions

6.4.3 Test Hypotheses

6.4.4 Stakeholder Analysis

6.4.5 Validity and Reliability

6.5 Discussion

6.5.1 Enterprise Architecture Maturity

6.5.2 Quality of IT Investment Decisions

6.5.3 Hypotheses

6.6 Implications and Limitations

6.6.1 Implications for Researchers

6.6.2 Implications for Practitioners

6.6.3 Limitations

6.7 Conclusion

7 How Enterprise Architecture Improves the Quality of IT Investment Decisions

7.1 Introduction

7.2 Theoretical Background

7.2.1 Quality of IT Investment Decision Outcomes

7.2.2 Use of EA

7.3 Research Design

7.3.1 Research Questions

7.3.2 Research Methodology

7.3.3 Validity and reliability

7.4 Quartiles and Descriptives

7.4.1 Quartiles
8 Preconditions for the Use of a Checklist by Enterprise Architects to Improve the Quality of a Business Case

8.1 Introduction .................................................. 165
8.2 Related Work .................................................. 167
  8.2.1 Enterprise Architecture .................................. 167
  8.2.2 Business Case ............................................. 167
  8.2.3 Checklist ................................................. 167
8.3 Research Method ............................................. 169
  8.3.1 Research Approach ...................................... 169
  8.3.2 Checklist Design ........................................ 169
  8.3.3 Experiment Design ...................................... 170
  8.3.4 Focus groups ........................................... 172
8.4 Execution ..................................................... 173
  8.4.1 Data Collection and Analysis ........................... 173
  8.4.2 Checklist ................................................. 174
8.5 Results ......................................................... 174
  8.5.1 Descriptives ............................................. 174
  8.5.2 Experiment and Focus Groups ......................... 176
8.6 Discussion and Contribution ................................ 179
  8.6.1 Discussion ............................................... 179
  8.6.2 Contribution ............................................ 183
8.7 Threats to Validity and Limitations .......................... 183
8.8 Conclusion ................................................... 184

9 Conclusions .................................................... 187
  9.1 Revisiting the Research Questions ......................... 187
  9.2 Answering the Main Research Question .................... 192
  9.3 Contributions ............................................... 193
    9.3.1 Scientific Contribution ................................ 193
    9.3.2 Contribution to Practice .............................. 194
  9.4 Looking Backward and Forward ............................. 195

Summary ........................................................ 199
