

## Table of contents

<b>Chapter 1</b>	General introduction	<b>9</b>
<b>Chapter 2</b>	Monocyte-derived tissue Transglutaminase in multiple sclerosis patients: reflecting an anti-inflammatory status and function of the cells?	<b>35</b>
<b>Chapter 3</b>	Tissue Transglutaminase contributes to myelin phagocytosis in human IL-4 driven monocyte-derived macrophages	<b>55</b>
<b>Chapter 4</b>	Tissue Transglutaminase expression in peripheral blood mononuclear cells is associated with clinical and magnetic resonance measures of disease progression in MS patients	<b>73</b>
<b>Chapter 5</b>	Differential expression of tissue Transglutaminase splice variants in peripheral blood mononuclear cells of primary progressive multiple sclerosis patients	<b>89</b>
<b>Chapter 6</b>	Summary and general discussion	<b>101</b>
<b>Chapter 7</b>	Appendices:	
	• English summary	<b>121</b>
	• Nederlandse samenvatting	<b>125</b>
	• Sommario	<b>128</b>
	• Curriculum Vitae	<b>131</b>
	• List of publications	<b>132</b>
	• Acknowledgments	<b>134</b>
