# Table of Contents

Chapter 1  General introduction 9

## PART I  Relationship of serum 25(OH)D with inflammation and the role of adiposity

Chapter 2  Associations of different body fat deposits with serum 25-hydroxyvitamin D concentrations. 25

Chapter 3  Association of serum vitamin D concentrations with C-reactive protein, leptin and adiponectin is largely explained by the amount of adiposity. 43

## PART II  Relationship of serum 25(OH)D with pulmonary function

Chapter 4  Associations of serum 25(OH)D concentrations with lung function, airway inflammation and common cold in the general population. 59

Chapter 5  Association of vitamin D status with pulmonary function: potential mediation by inflammation and physical function. 79

## PART III  Relationship of serum 25(OH)D with quality of life and effects in COPD

Chapter 6  Associations of serum 25-hydroxyvitamin D concentrations with quality of life and self-rated health in an older population. 99

Chapter 7  Effects of daily vitamin D supplementation on respiratory muscle strength and physical performance in vitamin D-deficient COPD patients: a pilot trial. 115
